OBJECTIVE

A highly motivated and dedicated individual seeking a challenging position in software development where I can apply my technical skills, contribute to innovative projects, and continuously enhance my knowledge while growing professionally.

EDUCATION

Degree/ Qualification	Institute/School	CGPA/Percentage	Year
B.E. CSE	Dr.N.G.P. Institute of Technology	8.3	2023 - 2027
HSC	Sree Dharmasastha Matric Hr.Sec.School	90	2022 - 2023
SSLC	Sree Dharmasastha Matric Hr.Sec.School	Pass	2020 - 2021

PROJECTS

- **Border Alert System Using GPS and RF Communication:** Designed and developed a border alert system using GPS, RF communication, NodeMCU, and a GSM module to track movement and trigger alerts when predefined boundaries are crossed. Implemented real-time geofencing, data transmission, and remote alerting to enhance security and monitoring efficiency.
- **Stress Free Life:** AI-powered mental health monitoring system for real-time stress detection using smartwatch data and machine learning. Uses heart rate, sleep, and activity data for continuous tracking, with personalized relaxation tips, stress alerts, and wellness recommendations to support proactive mental health management and user engagement.

- **Decentralized Environmental Monitoring for Smart Cities:** Developed a web-based environmental monitoring system for smart cities to track real-time air, noise, and water pollution using API-based data sources. Designed interactive dashboards, pollution maps, and clean-route navigation to provide location-based environmental insights. Built a responsive and user-friendly interface to enhance environmental awareness and accessibility.
-

INTERNSHIP

Ether Infotech: Completed a 15-day Full Stack Development training program with practical exposure to frontend and backend technologies. Acquired hands-on experience in HTML, CSS, JavaScript, Node.js, Express.js, and database connectivity. Built responsive web applications and strengthened problem-solving and development skills.

Student Management System: Student Management System: Designed and implemented a web-based application for managing student records with CRUD operations and secure user authentication. Utilized Node.js, Express.js, and MongoDB for backend development and data management, with a responsive user interface for seamless user interaction.

SKILLS

- **Programming :** Java, SQL, DSA, C, Python, HTML, CSS, JavaScript, React, Node.js.
 - **Soft Skills :** Time Management ,Adaptability, Rapid Learner.
-

CERTIFICATES

- **NPTEL** : Cloud Computing ,Responsible and Safe AI Systems,Internet of Things
 - **Coursera** : Advanced Statistical Analysis and Tools
 - **LinkedInLearning** : HTML Essential Training, Learning SQL Programming
-

PERSONAL DETAILS

- **Date of Birth** : 17.12.2005
 - **Languages Known** : English, Tamil
 - **Address** : 23 Amman Nagar, Saravanampatti, Coimbatore -35
